About This Content

This War of Mine - War Child Charity DLC
100% of 11 bit's proceeds go to the War Child charity!

This War of Mine - War Child Charity DLC contains unique street art pieces made by artists from all over the world including: M-City, Gabriel "Specter" Reese, SeaCreative, Emir Cerimovic, Fauxreel and Mateusz Waluś. You'll be able to find all of them in different places within This War of Mine, building a unique in-game gallery. The compositions represent reflections on the human condition and the state of humanity during a time of war.

100% of 11bit's proceeds from the DLC go to the charity War Child, who focus on helping children who suffer from conflicts and wars around the world. The DLC was made thanks to the aforementioned artists, graphic artists from 11 bit studios and War Child UK.

There are three tiers (including the same DLC content) for those who are willing to donate more to the cause. Thank you and please don't give up on trying to make this world a better place.

The overall atmosphere in this game feels really great.
Now I'm just looking forward to play the new content.
It's always nice to see a game with active development.
I have to recommend this game to y'all. It's really good.
This dlc sadly doesn't give anything useful to the game.
But it does give a nice digital hug to your steam library.
Maybe you should give some of your money to charity.. Heartwarming.. the best DLC I#ve ever seen
